Subject.- Purchase of one Electric motor to the Padmeswara well at Kunigal by the Kunigal Town Municipality

Sir,

In forwarding herewith the correspondence ending with letter No. H.C. 4/48-49 dated 17th July 1948, on the above subject, I have the honor to state that the Municipal Council have at their meeting held on 10th July 1948, resolved to purchase a new electric motor to the Padmeswara well and to meet the expenditure out of the closing balance of the Municipality.

The President states that the motor attached to the Padmeswara well went out of order on 5th July 1948 and had to be removed for effecting repairs to ensure supply of water to the town and that it was ascertained that it would take some time to set right the motor. It is further stated that an electric motor at a cost of Rs 850/- has been purchased in anticipation of sanction, from Messrs ' The Mysore Industrial Supplies ' Bangalore, and that the same has been installed and in operation.

During the current year a sum of Rs 3,000/- has been provided in the budget for maintenance of water supply and this includes the establishment charges also. The President requests for obtaining the sanction of Government to meet the cost of motor out of the closing balance of the Municipality as the proposal

as the proposal of the Municipal Council exceeds the budget provision by Rs. 850/-.

I therefore request that sanction of Government may kindly be accorded to the proposal of the Municipal Council and to meet the expenditure out of the closing balance of the Municipality for 1948-49.

I have the honor-to be,
sir,
Your most obedient servant,

REVENUE DEPARTMENT BANGALORE

Sir,

Subject — Providing a new Induction motor for water works at Kunigal.

I have the honor to state that the Sanitary Engineer in Mysore, Bangalore has reported that the motor ~~worked~~ installed at the water works at Kunigal was out of order in September 1945 and is under repairs in Government Electric Labortary An oil engine has been temporarily installed since then in place of the motor engine and the condition of the oil engine is reported to be much deteriorated and the motor engine even after repairs is opined to serve only for a short period. In order to avoid the inconvenience and difficulty arising from any sudden collapse of the repaired motor engine he suggests installation of a spare new induction motor for the water works at an estimated cost of Rs 900/-

The Municipal Council while agreeing with the suggestion of the Sanitary Engineer, have approved the estimate of Rs.900/- and have resolved on 5-12-1945 that the expenditure may be met out of the budget provision for 1946-47 under water supply charges

The file of records is herewith enclosed for kind perusal.

In these circumstances, I request that sanction Government may kindly be obtained to the resolution of the Municipal Council.

I have the honor to be
sir,
Your most obedient servant
